Ray-Killed Bacteria.
A method for sterilizing milk with-
out heating or adding preservatives is
claimed to have been effectively dem-
onstrated recently in Holland. An ap-
paratus has been constructed, it is
explained, whereby the milk flows in
a thin stream along an electric light,
the ultra-violet beams working on the
bacteria. The result is attributed to
the quality of the ozone formed under
the influence of the light.—The Argo-
nant.

Remember you can buy the Old
Homestead and U. S. flour only
at Goodman's.
